

11-layer PA/EVOH/PA/PE film
with EVOH high barrier
available from 50-300µ

FOR PERFECT PRODUCT SAFETY

Our PA/PE (EVOH) high barrier composite films offer a unique combination of flexibility, aroma protection and durability. Thanks to their special polyamide and polyethylene design, they not only offer high puncture resistance, but also reliable protection against moisture and dehydration.

PRODUCT EXPANSION:

Our **allflex ER is up to 97% recyclable** and therefore offers an environmentally friendly packaging solution without compromising on quality and protection.

APPLICATION EXAMPLES:

- Baked rolls
- Convenience products such as pizza
- Fresh noodles
- Sausage products
- Packing of beef (maturing)
- etc.

INDIVIDUALIZATION:

- Antifog on request
- Peelable surface
- Individual print
- Color options

ADVANTAGES AT A GLANCE:

- ✓ Optimum product protection
- ✓ High barrier values ideal for extending the best-before date
- ✓ First-class workability
- ✓ Aesthetic product presentation thanks to increased transparency
- ✓ First-class skin sealing properties (full-surface sealing)
- ✓ High puncture resistance and deep-drawing properties
- ✓ Temperature tolerance up to 100°C for 4 hours
