

allflex UHT

HIGH TEMPERATURE FILM

11-layer PA/PP film
with medium barrier
available from 50-300µ

THE RIGHT ONE WHEN IT GETS HOT

The allflex UHT (Ultra High Temperature) is the ideal solution for food packaging that has to withstand high temperatures. This innovative high-temperature laminated film tolerates temperatures of up to 121 °C for up to one hour – perfect for hygienic sterilization of corn, beetroot and other foods.

APPLICATION EXAMPLES:

- Sterilization of vegetables such as corn, beetroot
- Potatoes
- Tofu

allvac

Folien GmbH

ADVANTAGES AT A GLANCE:

- ✓ Temperature resistance up to +121°C for 1 hour
- ✓ Ideal for temperature applications such as cooking, simmering, pasteurizing and sterilizing
- ✓ Increased puncture resistance
- ✓ Extremely high transparency
- ✓ Appetizing presentation on store shelves
